First at the finish line

The perfect solution

Glass block looks great but until now it's had a problem: there was no good way to stop using it. An exposed side, the top of a partition – these were difficult areas because there was no compatible material to complete the raw edges.

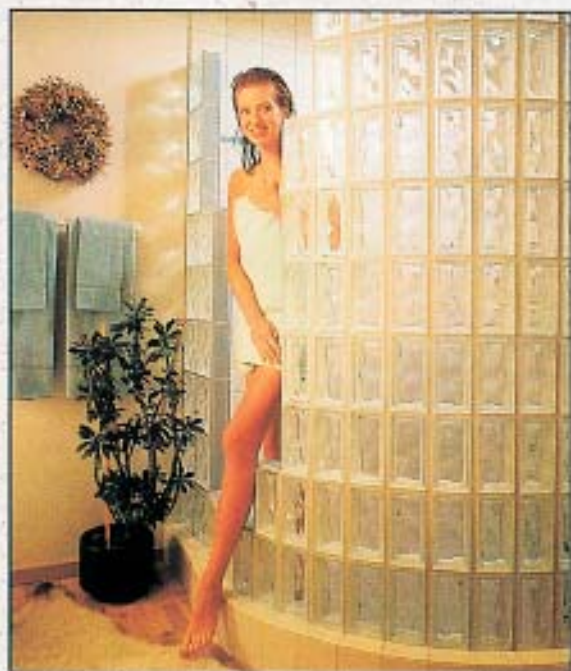

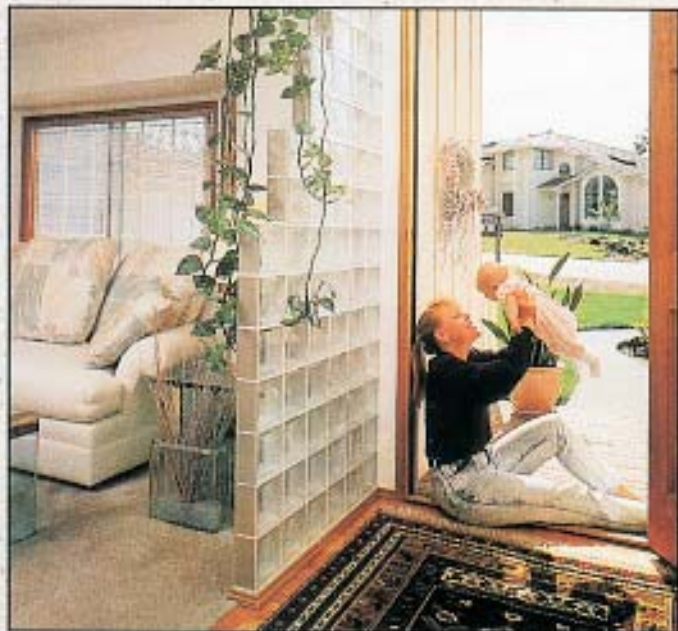

Natural go-togethers

INTERSTYLE took the lead in providing a natural solution to finishing glass block – STYLECAP.

STYLECAP's varied sizes and shapes match block standards to provide the crowning touch for any glass block creation in a home or business.

Complement or contrast

STYLECAP has all the luster and depth of glass block because it is glass. STYLECAP comes in a range of luminescent colors, from vivid to soothing – whatever the design calls for. So you can complement or contrast the finish cap with the block itself.

Endless new possibilities

STYLECAP is ideal for finishing circular shower walls, interior dividers and glass art constructions. No matter what the decor – from casual to art deco to high-tech – STYLECAP is appropriate. You can let your imagination soar now that glass block projects can be finished so handsomely.

Easy to live with

Sleek and easy to care for, STYLECAP fits almost any bathroom, kitchen, family room or office. Maintaining it is as simple as cleaning glass block. All it takes is an occasional wipe with your usual glass cleaner.

With so much going for it, it's a pleasant surprise that STYLECAP is also cost-effective.

In residential or commercial applications, STYLECAP will help you push the limits of traditional design.
